MOVEMENT ON FOOT TO REVIVE THE CHAMBER OF COMMERCE

Business Men Appreciating the Worth of This Organization to the Community Hope to See Chamber Revived in the Immediate Future.

For the past several days a number of our prominent business men who are vitally interested in the welfare of the city have been considering a general revival of the Maysville Chamber of Commerce, which since the leaving Secretary Carl Dodds has been peacefully slumbering, no effort being made to procure a Secretary to succeed Mr. Dodds or to keep the Chamber active in doing the good work it has been accomplishing since its organization.

So vitally interested in this organization are these men that a meeting will probably be held sometime next week of those interested when plans for a complete revival of the organization will be discussed and if it meets with the approval of the whole of the directorate, it has been suggested that a revival campaign should be put on by some organization equipped to put on such a campaign under expert management.

Every person interested in the Chamber of Commerce and its future as well as the future of Maysville is glad to see some action being taken and such a proposed campaign would meet with the support of all who are interested in the welfare of Maysville.

CHURCH LEADER DIES IN CINCINNATI, OHIO

One of the great leaders of the Christian Church, F. M. Rains, of Cincinnati, died yesterday noon and will be buried in Cincinnati next Monday. For more than twenty-five years and up to the time of his death he was a secretary of the Foreign Christian Missionary Society. He over exerted himself in the days of his public speaking and so hastened his death. As a church dedicatory he had few equals. He has spoken in Maysville several times and has many personal friends here, having married a Miss Stevens, of this city.

For the past several weeks the officers of the Minerva Community Club, one of the liveliest organizations of this kind in the county, have been making arrangements for a Chautauqua to be held at the school house this fall when some of the leaders in home economics and agriculture in the state shall bring them interesting and instructive messages.

It has been finally announced that the dates for this chautauqua will be November 7th and 8th and some of the speakers will be Geoffrey Morgan, State Agricultural Agent, Prof. Coates, Rural School Supervisor, Miss Somers, state lecturer on home economics and others of state-wide reputation. There is also a possibility of bringing the Kentucky University Glee Club down for one day's program.

The admission to these meetings which will begin on Friday evening, November 7, and last through Saturday night, will be absolutely free and everyone in the Minerva Community will be urged to attend.

It is to be hoped that other Community Clubs in the county will follow the lead of the Minerva Club and that similar courses of entertainment and instruction will be given free in various parts of the county this winter.

FILTRATION PLANT WILL BE DISCUSSED BY CITY OFFICERS

Meeting of Directors of the Maysville Water Company and the Water Committee of City Council to Be Held This Afternoon.

A very important meeting of the Directors of the Maysville Water Company, the members of the City Council Water Committee will be held at the committee room at the City Council Chamber this afternoon at 4 o'clock when matters of vital interest in regard to the city's water supply will be discussed thoroughly.

Mayor Thomas M. Russell returned last night from Louisville where for the past two days he has been going over the situation with the directors of the company and they, too, have come to Maysville for a conference with local officials.

The chief subject to come before the joint meeting this afternoon will be the matter of the immediate installation of a filtration plant as has been recommended by a Mason County Grand Jury and as was recommended by a United States Sanitary Engineer, who made a complete survey of the city water system. It is understood that local officials are insisting on the immediate installation of a first class filtration plant and the Water Company is asking for some revision of their franchise with the city.

It is not expected that anything final will be done at the meeting scheduled for this afternoon but it is more than likely that things will be put in such shape that they can be brought before the City Council as a whole when it meets for the November meeting. It is understood that the present City Council is very anxious to clear up the water situation before their term of office has expired and the November meeting is probably the last chance they will have to put on foot a final solution of this very perplexing and vital subject.

RAILROADS SEEK HIGHER PASSENGER RATES

Twenty-five Per Cent. Mentioned as Increase Sought; Government Declines For Operation This Year \$290,000,000.

Washington, October 25.—Railroad corporations have started the collection of data for presentation to the Interstate Commerce Commission in advocacy of increased transportation rates.

After Director General Hines declined in a conference Thursday to take active part in the negotiations for increased rates, the railroad corporations decided to act independently and started immediately the accumulation of material to convince the commission of the reasonableness of their demands.

The director general's refusal was based on the ground that the government had no intention of initiating advances, but he agreed to place at the disposal of the experts of the railroad administration and all available information bearing on the subject.

The percentage of increase which the railroads will ask for has not been determined, but 25 per cent. has been mentioned commonly as the amount. Operating expenses, it has been estimated, have increased about 95 per cent and the deficit incurred by the government in the operation of the railroads in the first eight months of this year was approximately \$290,000,000.

CHILDREN'S HOME CANVASS TO BEGIN ON NEXT MONDAY

Effort Will Be Made to Raise \$300,000 in Five-Day Campaign For Orphanages in Kentucky.

Louisville, Ky., October 25.—Is a homeless Kentucky boy or girl worth the price of a smoke?

And if it is, are you willing to back up your conviction to the extent of a dime—the price of a cigar?

These questions are asked of every person in the State by the Kentucky Children's Home Society, in an endeavor to raise \$300,000 in a fifty-day campaign beginning next Monday, for the purpose of building a village of cottages on a farm, ten miles from Louisville, near St. Matthews.

As a reminder of what the destitute children, who had been reared by the Society, have done to pay their debt to the State, the children now in the care of the Society, proudly point to their service flag that contains 130 stars, representing the number of older boys who shouldered the gun against the Hun. Five of this number gave their lives for the cause: ten won commissions, and one of the young ladies went to France as a Red Cross nurse.

The Society does not deal with the defective children of the State, but only with those who are normal, mentally and physical, and shapes them during the formative period of life into good and useful citizens. During more than twenty years of its history the Kentucky Children's Home Society received from the various counties of the State on orders from county judges about 3,000 children, several hundred of whom are now grown men and women in various vocations of life and an honor to the State and institution.

Rev. W. D. Welburn will speak at the Lebanon church on the Prohibition Amendment Monday night, October 27, instead of at Franklin School house as before announced. Rev. R. Jackson will speak in Germantown Colored Christian church Thursday, October 30, instead of Wednesday night, as announced before.

A grand Oriental Symposium will be held at First Presbyterian Church Thursday night 7:30 p. m. The program includes an address, Capt. Ehl Kltub (Albert Osborne) on India and her Religions. He will appear in native costume and give details of Hindu life, from his own experience.

NATION'S CLOCKS TURNED BACK AN HOUR TONIGHT

Under Daylight Saving Law, All Clocks in the Nation Go Backward An Hour at 2 O'clock Sunday Morning—Little Trouble Is Expected.

Manager Harry Robinson, of the Western Union Telegraph Company, has received instructions from his company that all of the clocks in the city controlled by the company will be stopped one hour at midnight tonight to allow old Father Time to catch up.

Railroad officers and employees have been instructed to turn their watches back one hour at 2 o'clock Sunday morning, according to a recent statement by Director General Hines, and trains in terminals when the change is made will be held until the scheduled time of departure under the new time.

Citizens of Maysville, though not so particular as to the hour at which the change is made, will turn back the hands of their timepieces one hour when they retire Saturday night or when they rise Sunday morning. Of course, those who are sticklers for the absolutely correct arc at liberty to stay up until 2 o'clock Sunday morning to make the change.

PROHIBITION RESULTS PROVE GRATIFYING

Statement Issued by Mason County Dry Committee Shows Arrests Have Been Reduced.

The Mason County Dry Committee, organized to get out votes for the State-wide Prohibition Constitutional Amendment, issues this statement today:

The results of prohibition in Kentucky have been most gratifying. The statistics for Frankfort, Ashland, Lexington, Bardonia, Owensboro, Lebanon, Paducah and Hopkinsville show a total of 5,364 arrests in July 1918, with saloons, and 1,234 arrests in July 1919, under prohibition of these 2,731 in 1918 were for drunkenness, under saloons and under prohibition only 396. This is a fair average for the whole United States.

In Bardonia and Lebanon there was not a single arrest for drunkenness in July 1919.

These statistics are entirely reliable. No stronger argument could be made for prohibition. When the present supply of liquor is exhausted the reduction in drunkenness will be far greater.

GETS LIFE TERM FOR THE MURDER OF ADAMS COUNTY MAN

James Thompson Gets Life Term in Ohio Penitentiary For Killing Louis Metzger in Fight Over Potatoes.

It has just become known here that after deliberating nearly five hours the jury in the James Thompson murder case reported to Judge Thomas at Portsmouth, Ohio, shortly before 8 o'clock Tuesday night with a verdict finding the defendant "guilty" of second degree murder in manner and form as charged in the indictment. The case went to the jury at three o'clock Tuesday afternoon and at 4:30 the jury asked for the stenographer's notes on certain evidence which was read to them. The jury was apparently "stalled" on the question of determining the property rights of the Metzgers and the defendant and this prompted the court to further charge them on that point.

The crime for which Thompson was convicted occurred at Pond Run on the afternoon of September 26, last, when he shot and killed Louis Metzger following a dispute over a division of potatoes grown by the Thompson family on the land of Simon La-bold. Earl Metzger was also seriously wounded by Thompson that he died four days later at Hempstead hospital. A second indictment is pending against Thompson for the murder of Earl.

Louis Metzger who lived in Adams county near the county line, was the agent for the land and with his brother was engaged in digging the landlord's share of the crop when the tragedy happened. The weapon used was a shot gun. The defendant made a plea of self defense, claiming that the Metzgers shot at him with a revolver before he fired the fatal shots. The verdict in the case carries with it life imprisonment in the penitentiary.

KENTUCKIANS ARE TIRED OF GANG POLITICS AND ROTATIONS

Kentuckians are tired of gang politics and rotation in office. They have reached the conclusion that the day of one man holding office all of his life is past.

Kentuckians all over the state have demonstrated very plainly that they are opposed to the Divine right of office holders and gang succession in office. The world has just demonstrated that it's tired of the Divine right of Kings and family succession in power.

Mason countians only a few years ago by their vote plainly demonstrated that they had tired of gang rule and of one crowd of politicians controlling the affairs of government. But the same condition which faced the people of Mason county in the last county election faces them now in the state election. Governor Black, Mat Cohen, Henry Bosworth, John Newman and Henry Turner, all candidates on the Democratic ticket this year have long been eating out of the political trough of Kentucky and people are going to show them on the fourth of November that they want a change.

The only way to break up this gang rule of state affairs at Frankfort and this succession in office of professional politicians is to vote the straight Republican ticket on November 4th. A vote for the Democratic ticket means that you put your stamp of approval on this thing.

CUTTING THE SCHOOL TEACHERS' PAY

In 1918 the Democrats at Frankfort reduced the amount set aside for the maintenance of the public schools (most of it for teachers' salaries) from 26 cents to 18 cents on each dollar. The bill, passed by a Democratic Legislature, was approved by Gov. Stanley, March 18, 1918. This big reduction was made in the face of the high cost of living and the rightful demand of the teachers for more pay.

On June 30, 1918, the State owed the teachers for back pay \$1,452,837.94, which had to be paid out of the 1919 school fund. Immediately the school year was cut from seven months to six months.

On June 30, 1919, the State still owed the teachers \$693,437.87 and the school year beginning July 1, 1919, was kept at six months. Stop this thing—vote the straight Republican Ticket.

CANTRILL GETS CALL; CHARGES ARE EXPLODED

Morrow Shows Conclusively He Did Not Prosecute Tobacco Farmers, Proving Falsity of Democratic Statements.

The latter of Attorney General A. Mitchell Palmer, proudly and bolsterously produced by Congressman Cantrill in an attempt to bolster up his exploded charge that Edwin P. Morrow prosecuted Grant county tobacco farmers, contains no information that Mr. Morrow has not hitherto given the public in formal statements. It entirely fails to relieve Mr. Cantrill of going before the people with false and insupportable charges against the Republican nominee. The record of the United States district court and the letter of Federal Judge A. M. J. Cochran, previously made public, shows conclusively that Mr. Morrow had nothing whatever to do with a prosecution which was completed months before he took office.

Mr. Palmer says that Morrow "protested" against the farmers being pardoned. The fact is that Mr. Morrow, after he took office, was asked by his superiors for an expression of opinion. In his report he said that he saw nothing in the record impelling him to recommend a pardon. Mr. Morrow explained this weeks before Mr. Cantrill solicited the aid of Mr. Palmer in an effort to save his face.

Reviews Facts in Case
Mr. Morrow reviewed the facts in the Grant county case in the following statement:

"The Hon. Campbell Cantrill, thru the columns of The Evening Post of Saturday, attempts to escape from statements and charges made by him at Winchester and Paris, Ky., and which have heretofore been demonstrated as absolutely false.

"Mr. Cantrill and Mr. Rhea first charged that I had secured an indictment against various farmers of Grant county, and that I had prosecuted these farmers in the United States court and secured their conviction by my plea to the jury. In a statement issued from Winchester, Ky., on October 9, I proved the utter falsity of their statement by showing by the records of the United States district court that I was not United States attorney when the tobacco growers were indicted, tried or convicted. I also showed by a letter from Judge A. M. J. Cochran that this prosecution was conducted by Edm. P. Grosvenor, special assistant attorney general, and in my first statement I said: 'The only connection that I had with this case, in any way, was to report to the attorney general upon application for pardon, which had been presented by the defendants.' I knew nothing of the case beyond the record as filed in my office. I consulted with Judge Tinsley, who was district attorney at the time the case was tried, and upon the advice and statements of Mr. Tinsley, and an examination of the record, I declined to recommend a pardon. The statement of the attorney general, upon which Mr. Cantrill now relies, is nothing more than confirmation of what I have heretofore said.

The Record
'Now Mr. Cantrill, after his statements have been absolutely refuted, comes with a great blare of trumpet

and says that in any event I refused to recommend the pardon of these farmers, and that therefore he is right in his contentions. It will be noted that he has entirely abandoned his ground, changed his position and confessed the falsity of his charge. As the record stands, the Grant county farmers were indicted, tried and convicted in the United States court by and through the efforts of Edm. P. Grosvenor, assistant attorney general. The case was appealed to the United States circuit court of appeals, and the conviction affirmed. With all of this, I had nothing to do, and only after the affirmation of this judgment I declined, as United States attorney, to recommend their pardon. This is the whole record, the entire facts sustained by the records of the United States court, and the letter of Judge A. M. J. Cochran. Mr. Cantrill has produced no evidence that I prosecuted these farmers; that I had anything to do with their conviction, and he has certainly failed to show, in any way, that I did anything wrong in refusing to recommend their pardon. "Caught in a falsehood, he attempts to dodge the issue and mislead the people of the State by direct misrepresentation."

BAKER MAINTAINED H. C. L.

Washington, October 22.—That Secretary of War Baker sought to prevent any reduction in the cost of living in the United States after the war, is established by the records of the American Expeditionary Forces which have been brought here from Europe by Representative Royal C. Johnson, of the committee investigating war expenditures.

The evidence shows that last April Baker ordered the sale in Europe of a billion dollars worth of supplies, including foodstuffs, shoes, clothing, textiles and other necessities of life, and ordered that it be sold at a sacrifice in order that it might not be brought back to the United States.

Pursuant to these orders surplus commodities in France which had cost the government \$1,426,000,000 were

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. O. H. Schill, of this town says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, to that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Take Little Room—GROW QUICK—Are Easy to Raise

The pair of pigeons Noah took into the ark could nest, and hatch and raise a pair of squabs in the forty days the rain lasted. The eggs of pigeons hatch in seventeen days. The squabs are ready to eat in three to four weeks. No other domestic bird or animal can make its meat product from start to finish in so short a time and repeat seven or eight times a year.

A box attached to a wall will house a pair of breeding pigeons. A coop 6x6x6 feet will accommodate eight to ten pairs. What little care pigeons require can be given at the convenience of the keeper at night by artificial light quite as well as by daylight.

FOR SALE Choice Homer Pigeons!

The Homer is the best pigeon that flies. Will produce more squabs than any other, and as large squabs as anyone will eat in polite society. Choice birds.

POSTMASTERS GIVE UP TO MAKE PARTY SAFE

St. Louis Official Contributed 500 of
His Salary to Help Elect
Congressmen.

Washington, October 25.—That post-
masters throughout the country are
subjected by the Administration to the
payment of part of their salaries to
the support of the Democratic party is
indicated by testimony of Colin H.
Self, in charge of the postoffice at St.
Louis, before the Congressional Joint
Postal Salary Commission.

When questioned by Representative
Halvor Steenerson, chairman of the
House Committee on Post Offices and
Post Roads, Self admitted that he had
been compelled to pay \$500 out of his
annual salary of \$8,000, and that his
money had gone to help elect three
Democratic members of Congress. He
asked that his salary be increased to
\$12,000 in order to meet the high cost
of living and the importance of the of-
fice. Steenerson asked him if he would
then be called upon to increase his
contribution to the party fund, but
no reply was forthcoming. Postmas-
ter Porter of Wayne, Pa., who asked
for a raise from \$2,400 to \$3,200 in his
salary, testified that he had contribut-
ed \$50 each year to Democratic suc-
cess.

With postmasters in the important
cities helping to make the country
safe for the Democratic party, the Re-
publican leaders of Congress are put-

ting through the bill for an increase of
the pay of the general postal em-
ployees. The measure has passed the
House and the Senate and is now in
conference between the two houses.
Postmasters at offices of the third
class, assistant postmasters and
clerks, bookkeepers and other em-
ployers of offices of the first and sec-
ond class, letter carriers in the city
delivery service, carriers in the vil-
lage delivery service, supervisory of-
ficials railway postal clerks and post-
masters of the fourth class are in-
cluded in the increase.

Those named who receive \$1,000 or
less are to get \$240 more, those who
receive \$1,100 or \$1,200 are to get \$200
more, those who now have \$1,300, \$1-
400, \$1,500 or \$1,600 are to get \$150
more, while those who now receive not
less than \$1,700 nor more than \$2,500
are to be increased \$100 per annum.
Printers, mechanics and skilled labor-
ers who receive compensation at the
date of \$1,150 are to be increased \$150,
those who receive \$1,260 are to get
\$135 more, and those who get \$1,380
are to have \$70 more. Postmasters at
offices of the fourth class will receive
increases at the rate of 15 per cent. of
their annual salaries. In addition,
they will be allowed \$50 per quarter
for rent, fuel and light. The pay will
be from July 1, 1919.

CHIROPRACTIC TALKS No. 7

Man

You cannot afford to slow down now. Every ounce of
your strength, your health, vitality and mentality are needed
in the efficiency tests that men must face daily. It's no time
for the wailing, whining quitter—for every man who is phy-
sically fit is laying down on the job if he permits himself to
become fagged out, tired, sick and ailing.

Your Duty is to Keep Well

It's every able man's duty to be well and keep so. Most
men are laid up not because of too much work, but because
their energy is dissipated and wasted by faulty nerve action.
Most men can be "100 per cent. men" if they will conserve
their power and use the full reserve that lies in the great hu-
man power house. That's why leaders in the world's activi-
ties who believe in conservation even in their personal efforts,
are endorsing Chiropractic, because through it faulty nerve
action is corrected and a normal distribution of energy is
brought about. The vital human power is restored and won-
derful endurance, a greater capacity to accomplish and real
health result through

CHIROPRACTIC

THE BETTER WAY TO HEALTH

Every man who wants to be a better man; who wants to
be more and make more will investigate Chiropractic (ki-ro-

pier and more successful.

AMERICANIZATION NEEDED

Washington, October 24.—Thorough
Americanization of all the foreign
workers now in the United States is
proposed by Senator Kenyon, of Iowa,
and other Republicans who have been
investigating the steel strike as mem-
bers of the Senate Committee on La-
bor.

"The committee returns from the
Pittsburgh district strongly in favor
of an Americanization bill, Congress
must do what it can to stimulate
Americanization. This is a common
ground on which we can all stand and
it is a rallying point for all. Teaching
in the fundamentals of our institutions
and in the English language is what is
needed."

No action will be recommended by
the Senate committee which have a
direct bearing on the present strike.
Members of the committee believe that
they should deal with a general condi-
tion and prevent its recurrence in the
future, rather than actively inter-
fere in the struggle now going on,
which is between employer and em-
ployee and does not directly concern
Congress, at least at the present time.
The fact that appealed to the com-
mittee while in Pennsylvania was that
practically all of the strikers are
foreigners, that few of them are nat-
uralized, and that most of them are
illiterate.

FARMS.

farm (formerly the Alexander farm)
located on the Maysville, Flemings-
burg and Mt. Sterling pike; 7 miles
south of Maysville and 10 miles from
Flemingsburg, within a mile of Mar-
shall Station on the L. & N. Railroad,
near the little town of Lewisburg.
This farm has a frontage on the above
named pike and runs back to a cross
pike, therefore is bounded on two
sides by turnpikes. The improve-
ments consist of a 7-room frame
house, tenant house, good stock barn,
and large tobacco barn, fencing better
than is found on the average farm,
plenty of water any kind of a season.
Improvements all in good repair, and
farm is ready for occupation and to
work without the expenditure of a lot
of money. It is a very unusual thing
of late years to have a farm of this
class offered at public sale in this
county, but the present owners are
too far from it to give it their personal
attention, and for that reason are
selling. Liberal terms, which will
be announced on day of sale, will be

"Modern Health Crusade" to be Part of School Study; Two Committees to be Named.

Fifty-four public health nurses are at work in Kentucky outside of Jefferson county according to a report made to the board of directors of the Kentucky Tuberculosis Association Wednesday, in Louisville, and a "Modern Health Crusade," in which children and adults are taught to fight preventable disease, has been made a part of the elementary school curriculum and published in the State Course of Study.

Repeals of the progress of the work in Kentucky were made by Executive Secretary J. S. Lock, Educational Secretary Jessie O. Yancey and State Supervising Nurse Marion Williamson.

Plans were made for the organization of two State committees, one for Eastern Kentucky with headquarters at Lexington, and one for Western Kentucky with headquarters at Louisville.

It was announced that representatives of the Association had visited 32 of the teachers institutes in Kentucky the past summer and announcement was made in these institutes of the prize essay contest in which the children of Kentucky are offered prizes amounting to \$500 to be paid in war savings stamps for the best essays along certain lines of public health work.

MISS RUBENS PLAYS DANCE HALL GIRL

Beautiful Actress Surpasses All Previous Roles As Temperamental Kate in "A Man's Country."

Alma Rubens, the temperamental beauty, is seen in a remarkably strong and colorful role in her latest production, "A Man's Country", which was produced by Winsome Stars and distributed by Exhibitors Mutual.

Those who delight in sales of the good old west of '49, when the California gold fever resulted in a rush of adventurers to the Pacific Coast, will find in this picture excitement galore and an emotional appeal that has basis in real facts.

Kate Carewe was a scarlet woman of the dance-hall, typical of the old west, who held undisputed sway at Kemp's resort in Huxley's Gulch.

When the Rev. Ralph Bowen, part preacher and all man, selected the Gulch as a fitting place to be regenerated, Kate resented his intrusion. She broke up his meetings, held him up to ridicule and flaunted her wickedness in his face.

Pestilence breaking out in the valley, the inhabitants fled to the hills, leaving only Kate, the preacher and some helpless children in the deserted village. Kate's mothering of the children taught the preacher real meaning of charity, and realized herself the awakening of her conscience.

Kate is attacked by Duncan, who had returned to avenge himself upon her, and is rescued by the preacher after a furious fight.

The types in the picture are excellent, the settings picturesque and true to period, while the fight furnishes a smashing climax to a thrilling story.

The production was made under the direction of Henry Kolker, who proves himself a master of his craft.

This picture will be shown at the Pastime Monday, October 27.

STRIKE ORDER TO STAND AND COAL WILL BE SCARCE

Wilson's Appeal Is Ignored and Half Million Miners Will Quit Work on Eve of Winter With the Supply Short.

Washington, October 25.—The last government effort to avert the coal strike set for November 1 failed utterly last night, and half a million miners will quit work on the very eve of winter, with the nations bins running dangerously low.

Even an appeal from President Wilson, sick in bed at the White House, was not enough to bring peace to a conference that was torn and on the breaking point half a dozen times during the day. Charges and counter-charges flew thick and fast as the groups of operators and miners fled out of the meeting which began somewhat hopefully four days ago.

While the operators announced that they had accepted the President's offer to wipe the slate clean and negotiate a new wage agreement, the miners charged that the operators had bolted without the consent of Secretary of Labor Wilson, the storm center of an extraordinary fight to save the country untold distress and suffering.

Surrounded by a score of miners, John L. Lewis, president of the United Mine Workers of America, hurried out of the hall and halted long enough to announce that the miners would walk out after a full day's work on the closing day of the present month. The final breaking up of the conference, Lewis said, meant that official notice of the failure would be sent forthwith to the unions everywhere to order the men out of the mines at the appointed hour.

The President's appeal was made through Secretary Wilson after the latter had exhausted every possible effort and had pleaded until his throat ached. It pointed out what a strike meant and urged the two sides to get together, negotiate their differences, restoring to arbitration only in the event that negotiations failed. The important point in the proposal, however, was that the mines be kept open and the miners stay at work.

The miners and operators had left the conference room and Secretary Wilson, tears springing to his eyes, was gathering up his papers, when he announced that his efforts and the President's efforts had fallen down and that the conference had adjourned for good. He briefly explained the status, but refused to be drawn into charges of bad faith.

Public Sale

Of a Well Improved, Well Located Small Farm

THURSDAY, OCTOBER 30th
At 10 O'clock

Mr. John W. Wilson, having bought a much larger farm, has authorized us to offer to the highest bidder his small farm of 62 acres, located right in the town of Rectorville. On this farm there is a six-room frame house, tobacco barn, cream station, and the usual outbuildings that go to make up a well improved small farm. The larger portion of the farm is in grass, much of which is blue grass.

There are many things about this farm that should appeal to the man with a family looking for a small farm, chief of which is the advantages of a high school right at your door, creamery station on the farm which is leased to the French Bauer people that brings a good annual rental, since has a good frontage on the pike which would give you the opportunity to sell off a part of the land at a 15¢ figure any time you would offer it. We are putting this farm up to sell and not see what it is worth, so if you are not there to buy it when it is knocked down, don't blame us if you have to spend the winter running around looking for a place to move to March 1st. Terms will be made known on day of sale, but will be reasonable.

WILSON NOW HAS THE DRY BILL BEFORE HIM

It Is Considered Doubtful Whether Physicians Will Permit Him to Consider It at Present.

Washington, October 25.—President Wilson had before him yesterday the prohibition enforcement bill recently passed by Congress with an opinion by Attorney General Palmer as to the measure's constitutionality.

Interest in the President's action on the bill was heightened by reason of the fact that the wartime enforcement section, making illegal the manufacture or sale of liquor of more than one-half of one per cent. alcoholic content, becomes effective with his signature.

It was considered doubtful, however, by White House officials whether the President would be permitted by Rear Admiral Grayson, his personal physician, to consider the bill and the opinion today.

Despite the President's activity Thursday and the day previous Dr. Grayson was able to announce that "the President is satisfactorily maintaining the improvement which he has recently made."

HAND HEARD ON STREETS

There was quite a crowd of people on the down-town streets Friday evening to hear the Maysville Boys' Band which gave quite a delightful concert. The fall and winter is coming and the band will soon have to give up these regular weekly concerts but some arrangements will likely be made for them to play indoors during the winter season.

Mr. Jerry Thoiaas has accepted a position at Mechanicsburg, Ohio, and leaves at once.
